Dyslexia affects almost everyone not just those with dyslexia.

At least 10% of the population has dyslexia and 4% are severely affected. We will all come across it at some time.

Importantly, because of the many abilities often enhanced in dyslexics, the positive impact of dyslexia can be huge, consider the work of these dyslexics:

Sir Richard Branson, Whoopi Goldberg, Sir Jackie Stewart, Zoe Wannamaker.

Yet too many children and adults with dyslexia still experience great difficulties at school and at work.

Why? Because so many people do not understand dyslexia, what it takes to manage dyslexia, to develop abilities.

This can lead to underachievement at school and at work. It can lead to unfair treatment and bullying.

The Create-Ability Factor...

In Northamptonshire, the NDA raises awareness and supports families, adults and organisations. NDA emphasises the create-ability of people with dyslexia whilst showing people and organisations how to manage the difficulties.
